☐ Other printed report uploaded **Name** _____ ☐ Not uploaded

10. Doctor who booked this woman

Name _____ **Degree** _____ **Post** _____ **Reg. no.** _____

Signature _____ **Date** _____

Free text _____

How to fill this form

1. Write the name as on the Aadhaar card. Mobile is the number she answers. Village, block and district are where she lives.
2. LMP is the first day of the last period. If a crown-rump scan before 14 weeks differs by more than seven days, the scan dates the pregnancy.
3. Tick history only if she says yes, or the old record says yes. Other is a free line. A blank line means Other was not present.
4. Investigations sit in their own column. Urine before sugar and before protein. HIV, VDRL and hepatitis B each have a negative tick and a positive tick.
5. One class only. Green if every red tick is empty. Darker wins. A red class is written by the doctor.
6. The blank space above these lines is for free text. Tick a report uploaded only when the paper is in the file. Sign name, degree, post and date.
