8. Doctor who saw this woman

Name _____ **Degree** _____ **Post** _____ **Reg. no.** _____

Signature _____ **Date** _____

Free text _____

How to fill this form

1. Copy name, age and mobile from the booking page. Weeks today are counted from the agreed EDD.
2. Tick one HRP class. A new red condition darkens the colour. Only the doctor writes red. Software may darken a colour. It may not lighten one.
3. BURP-H is every visit. B blood pressure. U urine, protein then sugar. R fetal heart. P pallor. H haemoglobin. A blank Hb is not a normal Hb.
4. Tick one visit number. Section 7 is ticked only on that row. Anomaly scan is ANC 2. Birth plan is ANC 6.
5. Interval history is since the last visit. Baby still, bleeding, leaking, fever or a fit is the same hour.
6. Write the value, then tick the report. Uploaded means the paper is in the file. HIV, VDRL and hepatitis B need one tick. A blank is not a negative.
7. The blank space above these lines is for free text. The doctor writes name, degree, post, registration number, date and signature.
